SS Global Study Trip in the UK (Day 5)

«Today's plan»

1. Visiting Science Museum
2. Visiting Natural History Museum

«Activity Report»

1. We visited Science Museum on a sunny morning. There is an impressive loop floated in the traditional and massive architecture. Many kinds of invaluable machines were exhibited and we learned how England have lead the world since the Industrial Revolution. In addition, we enriched our view of biology, earth science and mathematics.

2. Next, we visited the Natural History Museum. When we enter the building, we saw a model whale hung on the ceiling. We were amazed by the scale size of the model. In addition, there are displays of Great East Japan earthquake. We realized Japan has always been exposed to the threat of earthquake.
