SS Global Study Trip in the UK (Day 6)

«Today's plan»

Sixth International Science Conference

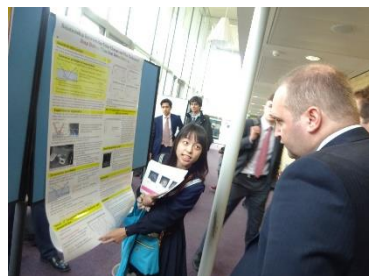

«Activity Report»

Today we had a joint research presentation session which was the most important program in this study tour. Three schools from Japan, Germany and the UK gathered at St. Paul's School and conducted oral presentations and poster sessions in English. From Japan, four students gave oral presentations. Their presentations were succeeded because they had practiced giving presentations many times.

Oral Presentation Session

After the presentation session, we had a poster session. We were nervous when we made presentations, but students from other countries seemed to have no difficulties. We learned that we should not hesitate to make mistakes and we should communicate positively. It is certain that we learned a lot. We hope we will make full use of today's experience.

Poster Session
