SS Global Study Trip in the UK (Day 3)

«Today's plan»

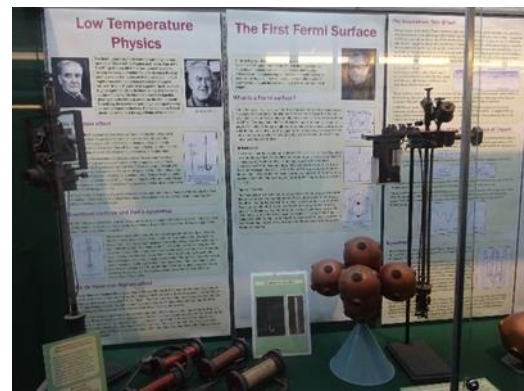

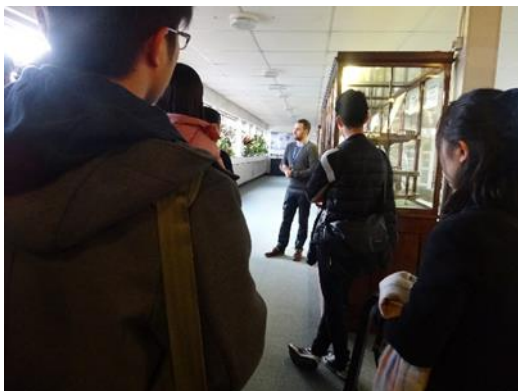

1. Visiting the University of Cambridge
2. Visiting Cavendish Laboratory and studying in the city of Cambridge

«Activity Report»

1. In the morning, we received two lectures. Professor Kumar talked about sustainable society and energy resources. Mr. Nishimaki gave us a lecture about Drug Discovery. In the afternoon, we received two more lectures from Japanese researchers in Cambridge. Dr. Oikawa and Dr. Yanagida told us about their research, daily life and experiences in the University of Cambridge. It was a good opportunity to think about our future.

2. After the lectures, we visited Cavendish Laboratory, which produced some Nobel Prize winners. We learned the studies of Maxwell, Thomson, Bragg, and Watson & Crick. We saw experimental devices, their discoveries and inventions, and we are impressed with them.
